The Montana Public Service Commission issued an order revoking the Class D (solid waste) motor carrier authority owned by James A. Jones, dba Oilfield Maintenance. The authority is currently leased to and operated by Rickey Rost, dba Disposal Services Company, in the Miles City area.

Revocation is effective 60 days from the date of the Commission's order. Revocation is subject to reconsideration and appeal, but on its effective date, the revocation will terminate the solid waste transportation of Rickey D. Rost, and his customers must make other arrangements for solid waste transportation.

The revocation is not the result of actions by Rickey D. Rost regarding the lease of the authority or transportation operations under the authority. The revocation is the result of the failure of the owner of the authority, James A. Jones, to meet legal requirements pertaining to Class D authorities.
